Open Source GIS Software - North Carolina

limit users’ understanding of what the code and/or tools are doing Open source makes source code available, and the community can contribute and share without the financial and strict licensing requirements of commercial software Open source also allows for free knowledge and technology sharing and puts the end user communities in charge of

Legal Impacts of Open Source and Free Software Licensing

The Self-Enforcing Nature of Open Source and Free Software Licenses There is a “savings” logic present in the MIT License (and others) that preserves the effect of the license even in the absence of an affirmative act of consent. This is because open source and free software licenses do not impose affirmative obligations.

Open Source Licensing - Rosenlaw

defuses this last, and equally fallacious, argument against open source and free software. While he doesn't waste time responding to the ridiculous claims of McBride, this book builds a framework within which the family of free and open source licenses can be understood. And in a rare talent for a lawyer,

Chapter XIV A Framework for Understanding the Open Source ...

A Framework for Understanding the Open Source Revolution Social Movement We believe that the 1984 “GNU Manifesto” (Stallman, 1984) is the first articulation of an Open Source creed. Richard Stallman's almost religious reference to the golden rule³, and how it dictates his developer behavior, launched the

LAWRENCE ROSEN OPEN SOURCE LICENSING

A complete guide to the law of open source for developers, managers, and lawyers. Now that open source software is blossoming around the world, it is crucial to understand how open source licenses work—and their solid legal foundations. Open Source Initiative general counsel Lawrence Rosen presents a plain-English guide to open

CHAPTER 2 u The MIT, BSD, Apache, and Academic Free Licenses

Examples of open source licensing, they are described here first. The MIT (or X), BSD, and Apache Licenses are classic open source licensing software licenses and are used in many open source projects. The most well-known of these are probably the BSDNet and FreeBSD Unix-like operating systems and the Apache HTTP Server.
